

## PA-FC-0-A11-01

Polarization Analyzer adapter for fiber cables with optics f' 11 mm

### FEATURES

Polarization Analyzer adapter for fiber cables with optics for collimating the beam.

- FC-PC, wide key
- Paraxial coupling axis
- Collimating optics with focal length 11 mm
- Wavelength range: 370 - 600 nm

**Please note:** This adapter is for use with the [Polarization Analyzer SK0101PA](#) only. For fiber adapters without optics (Bulkhead adapters) please see [here](#). For standard applications we recommend to use an adapter without optics since any additional optics may show birefringence and so may falsify the measurement result.

## FAQ

### Polarization Analyzer accessories

**There are two adapter options - one without integrated optics and one with integrated optics. What is the best option for me?**

For standard applications we recommend to use an adapter without optics since any additional optics may show birefringence and so may falsify the measurement result.
